Sir:

In response to the Office Action mailed on June 1, 2005, please consider the following amendments and remarks.

Listing of the Claims are reflected in the listing of claims, which begins on page 2 of this reply.

Remarks begin on page 6 of this reply.

thermal conductive composition having a dissipation factor as claimed; and, with reference to claim 15, neither Misra '910 nor Misra '116 teaches a thermal conductive composition having particulate filler having an average particle size in the claimed range. For a *prima facie* case of obviousness, all of the claim elements must be disclosed, suggested or taught in the references, or in the combination of references. Consequently, claims 1 and 15 are believed to be in condition for allowance for at least the reasons summarized above with respect to amended claims 1 and 15, and their dependent claims. A notice of allowance is respectfully requested.

New claims 27-31 depend from allowable claim 1 or 15, and are therefore allowable also. New claim 32 is allowable for at least the same reasons that claim 15 is allowable, and new claims 33-40 depend from allowable claim 32. Their consideration and allowance are requested.

Should the Examiner believe that anything further is needed to place the application in condition for allowance, the Examiner is invited to contact the Applicant's undersigned representative at the telephone number below. Any additional fees for the accompanying response are hereby petitioned for, and the Director is authorized to charge such fees as may be required to Deposit Account 07-0868.

Respectfully submitted,
